ROCK CONTENT TECHNICAL SERVICES

Ion **Integration**

Built-in integration between Ion and a predefined marketing automation instance

FULL PRICE
\$ 1,500 USD

What is the **scope** of this project

By the end of this agreement, you will get 1 (one) integration in Ion configured to export data from the platform to your preselected CRM or marketing automation tool, including the following:

- 7 tools available to be selected — either Act-On, or Eloqua, or HubSpot, or Marketo, or Pardot, or RD Station, or SFDC (Salesforce)
- Basic Lead Data fields (name, email address, phone number, and the like)
- Ion Core Data fields (IP address, Geolocation, and the like)
- Up to 20 custom fields

What is **not included** in the scope

The following items are under the client's responsibility and will not be provided at any point of this project, neither before, during or after its completion:

- Integration outside the predefined list of tools available
- Custom feature and advanced capabilities
- Any additional out-of-scope requests
- Maintenance of the integration moving forward

A **custom-scope project** is available and we can run a technical feasibility review and provide you with an estimate for your tailor-made Ion Integration agreement, including SSO (SAML2.0), different automation tools and extra fields for your conversion forms.

ROCK CONTENT TECHNICAL SERVICES

Stage Content Hub

WordPress template-based blog optimized for marketing performance to carry your content strategy along

FULL PRICE
\$ 5,000 USD

What is the **scope** of this project

By the end of this agreement, you will get 1 (one) WordPress-based Content Hub to be hosted on the Stage platform, including the following:

- 1 (one) high-fidelity mockup in Adobe XD
- Up to 5 predetermined interior pages
- Up to 25 options for categories or sub-categories (in total)
- Up to 2 (two) rounds of consolidated revisions
- Migration of up to 500 WordPress-based articles
- 1 (one) integration setup (HubSpot, RD Station, or Salesforce)
- Technical support for the domain pointing

What is **not included** in the scope

The following items are under the client's responsibility and will not be provided at any point of this project, neither before, during or after its completion:

- Copy and other assets necessary for the project
- Fixing pre-existing bugs and flaws in case of content migration
- Custom features and advanced functionalities
- Administration of WordPress or maintenance of the content hub moving forward

A **custom-scope project** is available and we can run a technical feasibility review and provide you with an estimate for your tailor-made Stage Content Hub agreement, including integrations, sophisticated design, and advanced functionality.

ROCK CONTENT TECHNICAL SERVICES

Hosting Migration

One-time migration of a WordPress-based hosting to Stage servers

FULL PRICE
\$ 7,000 USD

What is the **scope** of this project

By the end of this agreement, you will get a one-time migration of a WordPress-based site to Stage servers from WordPress version 4.5 and up, including the following:

- Multisite migration of up to 1 WordPress-based parent domain and 2 WordPress-based subdirectories
- Migration of up to 5000 WordPress-based existing article posts
- 1 (one) single round of revision
- Technical support for the domain pointing

What is **not included** in the scope

The following items are under the client's responsibility and will not be provided at any point of this project, neither before, during or after its completion:

- Copy and other assets necessary for the project
- Fixing pre-existing bugs and flaws in case of content migration
- Changes to the layout or design of the current theme or template of the blog
- Administration of WordPress or maintenance of the content hub moving forward
